About Us

IMMERSE IN A NUTSHELL

IMMERSE Coaching Company is an Ed-tech institution providing transformational coaching, courses, and community to empower and transform young African women into visionaries. We developed a comprehensive Coaching and Mentoring System with more than 200 courses that have directly impacted over 70, 000 members living across 100+ countries of the world.

Our Mission is to raise 1, 000, 000 visionaries, particularly of African descent, by 2030, empowering them through transformational thinking and tools, so that they can change the world in meaningful ways.

Introduction to the SproutWoman

In 2020, we started the SproutWoman Coaching Program to prepare, position, and propel young ladies (aged 15 and 24 years) for lives of purpose, growth, and impact.

Survey shows that this age range (15 - 24 years) is when the confidence gap widens for ladies as their confidence level plummets and if not tackled fast, can last a lifetime and determine their output/outcomes in career, marriage, and other relationships.

Ten years from now, our goal is for our SproutWoman Scholars to have evolved into next-level leaders across Africa, preserved from the tyranny of obscene sexuality, broken belief systems, short-term gratification, and intellectual mediocrity.

We want to raise Future-Forward Females through our work.

Testimonials

OLAMIDE ALOHU

As of today, the 12th of October 2022, I'm currently working on my first book. The book addresses the carelessness of a generation and their embrace of stereotypic mindsets that have shaped how they live their lives. I'm also taking a certification course on Coaching. This has to be the most remarkable transformation I've seen in my life.

LOIS AJAYI

My productivity rate has tripled and I am now able to leverage on tools I was exposed to during my 3 months of training to; beat overwhelm, procrastination and deliver more excellently in my studies and other identified growth areas.

OLUWAYEMI MORNKEJI

I came into this cycle with ideas but did not know how to execute on them; at the end of my 3 months, I am currently in the process of starting a boy-child identity school (The Godentity School) and I have been able to achieve 75% of my personal goals that I set for the quarter.
